Hey, ladies. I got some freaky shit for you on this one.
Just another way to get down girls. Check it out.

C'mon now! Let's start the session
Me and you and you Â– no question
You and you just keep me sweatin'
Look at that! I just made new friends
Ah, Yeah! Every which way & loose
3 ain't a crowd no need to call truce
So seductive Â– so suggestive
The way I move it, I'm impressin'
3 of us is positive
Positively excellent
I believe that we can do this
Show me which of you is truest
C'mon girls, let's go get loose
Shake & bake that nice caboose
Break it down - turn it out
And work it with your nasty mouths

Just Shake & Shimmy
Just you & Jenny
And here comes Wendy
Let's all get friendly now

Just Shake & Shimmy
Just you & Jenny
And here comes Wendy
Let's all get friendly now

Let's hit a strip club
This one - that one - all of the above
Don't forget to bring some dubs
Cuz they know how to show some love
Who knows girls you might hook up
For an after party rub-a-dub
Don't just watch Â– be a participant
Do your thing Â– anything you're wishin'
So get right and have some fun
And I can introduce someone
I'm no voyeur but when I saw 'ya

Couldn't hold back this good love for 'ya
Let's move somethin' so get yours
With your crew too live for amateurs
So ladies gon' throw up a three
And I'll see you at the afterparty ha ha, yeah!

Just Shake & Shimmy
Just you & Jenny
And here comes Wendy
Let's all get friendly now
