I've know you before
I've kissed your lips
I've felt you melt within me
And still I can't recall the moment when my heart began
to fail me

But who am I to say
That time is on my side
When the moon still hangs at night
Much to my surprise

Lay me down
On you're your floor
Wrap me up
With all fours

Where we go from here, I'll never know
The emptiness I feel just makes me want you more
Take me down, take me down
Whisper on my skin until I drown

I don't wanna feel a thing
I'm so numb I can't feel a thing

I've seen you before
I've held your hand
I've felt them press within me
And still I can't recall the careless way in which you
finally held me

But who am I to try
To regain what once was mine
When the sun will cease to shine
Much to my surprise

Lay me down
On you're your floor
Wrap me up
With all fours

Where we go from here, I'll never know

The emptiness I feel just makes me want you more
Take me down, take me down
Whisper on my skin until I drown

I don't wanna feel a thing
I'm so numb I can't feel a thing
One more time maybe I'll feel something
One more time perhaps I'll feel something
