Go on keep the faith  
Take it up, take it up  
Move and take it up  
Go on keep the faith  
Take it up, take it up, take it up  
By the light of nature  
By the light of nature

People the bass of the power generation  
Cool creation coming unation  
'Cause I can work from the twilight zone  
Yes yo to the break of dawn  
It's like a heartbeat coming up to you  
By the light of nature to just feel the groove  
I've got the power it's what you need  
Any kind of move, any kind of beat  
So I'll let you know so get it on the light  
I'm the man with the plan don't believe to hype  
Once again so I let the people know  
Can you feel the power, can you feel the goal  
Come in strength with a new harmony  
Can you feel a touch of ecstasy  
The real thing that you've got to feel  
By the light of nature so that's the deal

Light of nature  
The light  
By the light of nature

Peace to the different nations  
Why it was another feel the vibration  
You can feel so once again  
I'm the one and I'm your best friend  
From the top to the bottom you can feel the bass  
The rhythm, the rhythm coming up to this place  
I'm the one creator on the microphone  
You gonna get down to the party zone  
To the party zone I make you feel all right  
Believe in yourself 'cause this is your night  
Don't fight tonight cause it's got to be  
And push it your love 'cause this is reality  
It's like a dream coming back to you

So give me your chance you know I'll give it to you  
The real thing that you've got to feel  
By the light of nature so that's the deal

Come on ! Move it up

So I'll let you know so get it on the light  
I'm the man with the plan don't believe to hype  
Once again so let the people know  
Can you feel the power, can you feel the goal  
Come in strength with a new harmony  
Can you feel touch of ecstasy  
The real thing that you've got to feel  
By the light of me jump on this to deal
