Two of the star in the world.  
I forgot that when  
We see

When I look at her and feel.  
Not someone who just more familiar.

Rotation time, but perhaps the time is too slow.  
Later than night and day.  
Will take us to meet. Build ties Union.  
Each day has different meanings.  
If the nights and days will take us to familiar  
Do not think that we know the answer in mind.

One day she would have the answer.  
One day she would be willing tell. That you think.  
If I had eyes to see through the deep.  
Inside the mind of who is in it.

Rotation time, but perhaps the time is too slow.  
Later than night and day.  
Will take us to meet build.  
Pan tie each day is different meaning.  
If the nights and days will take us to familiar  
Do not think the answer is the answer.

First nights and days will bring us to meet.  
Build ties with the Union each day different meaning.  
If the nights and days will take us to familiar  
Do not think everything that we know the answer.
