Bounce

I wanna see ya bounce

Welcome to the party

This is one of a kind

Like a hot chilli pepper

It'll blow your mind

Don't know if you can take it

So now we're gonna shake it

And if you can't

getcha in house arrest

It's like this

We've got the crazy notion

DJ's treating us with a jumpin' potion

So come on everybody throw your hands in the air

We'll give it (uno dos tres!)

Oh yeah

Ya gotta get up

to get it down

(Come on, come on)

When the beat kicks in

And you feel the swing

Just don't stand around

Get ready to jump

Gonna funk around

When you feel the swing

Let the fun begin

Don't stop now cause I wanna see ya bounce

Chorus:

Livin' it up

Cause we're here to party

With a bouncey, bouncey

Gonna make you happy

Playin' the disco bongo with me

And a bouncey, bouncey

Come dance with me

(x2)

Stop the tracks
Can't you see it's not enough
Find the bliss
And he's coming on tough
They say turn it down
What'd ya say
No way

The sounds are pumpin'
From the DJ
Crank it up
Cause we're gonna ?????
The original Millenium
We're gonna rock it
So come on everybody throw your hands in the air
We'll give it (uno dos tres)
Oh yeah...

Ya gotta get up
to get it down
(Come on, come on)
When the beat kicks in
And you feel the swing
Just don't stand around

Get ready to jump
Gonna funk around
When the beat kicks in
and you feel the swing
Don't stop now cause I wanna see ya bounce

(Chorus)

Ya come on
Everybody jump up and down
(Cuz I wanna see ya bounce) Let's get it on
I wanna see you have a good time

Bounce

Ya come on
I wanna hear ya shout it out
I wanna see you bounce
Let's shake the floor
Here we go, we're gonna bounce
Throw your hands up...

(Chorus)
