Fly high, so fly high, so fly high! Go! To the sky!  
Fly high, so fly high, so fly high! Go! To the sky!

[ONEW] Now I'm going to try flying  
My heart burns up, engine turns up  
[JONGHYUN] Unveil the dreams hidden in your heart  
and believe in only me  
I'll hold your hand  
Can make your dream come true

[KEY] This thrilling feeling follows the sky blue light  
[TAEMIN] I won't let go of anything I will have it all  
[KEY] As long as we enjoy this moment  
[JONGHYUN] Even if I'm breathless, obviously I'll regret  
it if I stop  
[KEY] Don't be afraid of bitter failure or anything  
[ONEW] You have to go through it all whoa ~

Fly high, so fly high, so fly high! Go! To the sky!  
Fly high, so fly high, so fly high! Go! To the sky!

[MINHO] Your smile gives me happiness  
We will sail through the pain in no time  
I'm gonna make that great love someday without  
stopping  
[KEY] When you fall and when times are hard  
When you hate yourself for putting on a mask  
Be yourself! And hold my hand  
Hey! We're flying towards your dream

[KEY] Now open your eyes, get up to the world, look up  
to the sky  
[TAEMIN] Capture those dreams with your hand and fly  
far away  
I'll be at your side protecting you  
[ONEW] Can make your dream come true

[JONGHYUN] Even if I'm breathless, obviously I'll regret  
it if I stop  
[KEY] Don't be afraid of bitter failure or anything  
[ONEW] You have to go through it all whoa ~

Be yourself! And hold my hand  
Hey! We're flying towards your dream

[ONEW] Dazzling your smile is dazzling  
When it's hard and you're tired just smile whoa ~  
[JONGHYUN] Without hesitation again without  
hesitation  
Try finding your dreams you're so cool whoa~

[MINHO] Your smile gives me happiness
