What you gonna do? What I gotta do?
Keep me up and makin' a cash, in flash, at last
Do you wanna see the light or stand alone? Uh!
What you gonna do now what's up with the past?

What you gonna do? What I gotta do?
This is how we do it you n*ggas better know
Do you wanna see the light or stand alone?
In the midst of flippin' side, puttin' it down
Wild comin' through your town

(Hey yo yo) Shootin' to kill, lyrics I spill are raw deal
Essentially and mentally ill, that's for real
The source of a commin' to tie down and torture ya
Coast to coast now we boogie sprang in the raid
Watch it quiver, body blows bein' delivered
By thriller, sicker than the healer, when I come with the
Strains the mega pains that remain in your brain
Low tails a stain a mental high pain
