Get out of my house, girl get out of my bed  
Girl get out of my life, girl get out of my head  
Before you go away you should leave  
Leave the keys to my car, leave the keys to my crib  
Leave the keys to my heart cause you're welcome there

Save all your explanations, I don't wanna hear it  
Everything's gotta go girl, you're put out of business  
And out there you're start to cry girl  
Out there you'll ask me why  
And out there you'll lie about how you feel  
Don't make a scene, it's been real  
It's been real, it's been real  
It's been real, it's been real  
It's been real, it's been real  
Cause I made a mistake,  
Trying to make someone fake  
Something real  
That's why it kills for me to say it's been real

Get all of your shoes, girl get all of your bags  
Girl whatever you leave, will be out with tomorrow's ,  
Get all of your clothes, my next girl won't need those  
And you can keep those credit cards  
I've already cancelled those

Save all your explanations, I don't wanna hear it  
Everything's gotta go girl, you're put out of business  
And out there you're start to cry girl  
Out there you'll ask me why  
And out there you'll lie about how you feel  
Don't make a scene, it's been real  
It's been real, it's been real  
It's been real, it's been real  
It's been real, it's been real  
Cause I made a mistake,  
Trying to make someone fake  
Something real  
That's why it kills for me to say it's been real

Stop all your crying your dramatics girl goodbye

It's been real  
Let's stop pretending you're not with some other guy  
It's been real  
Let's make it easy it's not hard to say goodbye  
It's been real  
You made me feel how I feel  
So girl it's been real  
It's been real, it's been real  
It's been real, it's been real  
It's been real, it's been real  
Cause I made a mistake,  
Trying to make someone fake  
Something real  
That's why it kills for me to say it's been real  
It's been real, it's been real  
It's been real, it's been real  
It's been real, it's been real  
Cause I made a mistake,  
Trying to make someone fake  
Something real  
That's why it kills for me to say it's been real.
