Baby lock the door is all about you and me tonight  
Let me see those hands tight on my ,  
Baby don't be scared cause tonight I am all yours  
I am not gonna let you go  
No you can't get away  
There is nowhere you can hide  
And there is no place where you can escape  
I am not gonna give you up cause I know tonight is  
going down  
Down down down

Tonight I am the police man  
You can be the bad girl  
I am gonna read you your rights  
Cause this is gonna be a long night  
Put you in the , drive you to the station  
You don't get no phone call or visitation  
All you get is 4 ,.cause you got to .. out say  
Show me you mean it if you give me good behavior  
This might get it quicker that won't happen till I get  
enough  
Welcome to my prison of love  
Welcome to my prison of love  
Welcome to my prison of love  
Welcome to my prison of love  
It's my prison of love  
And I am about to lock you  
It's my prison of love  
And I am about to lock you  
It's my prison of love  
Welcome to my prison of love

You did the crime you got to do your time  
Won't be no solitaire , got to put your work in  
Got to get your work out it's time to meat up  
See what you are about  
I am not gonna let you go  
No you can't get away  
There is nowhere you can hide  
And there is no place where you can escape  
I am not gonna give you up cause I know tonight is

going down  
Down down down

Tonight I am the police man  
You can be the bad girl  
I am gonna read you your rights  
Cause this is gonna be a long night  
Put you in the , drive you to the station  
You don't get no phone call or visitation  
All you get is 4 ,.cause you got to .. out say  
Show me you mean it if you give me good behavior  
This might get it quicker that won't happen till I get  
enough  
Welcome to my prison of love  
Welcome to my prison of love  
Welcome to my prison of love  
Welcome to my prison of love  
It's my prison of love  
And I am about to lock you  
It's my prison of love  
And I am about to lock you  
It's my prison of love  
Welcome to my prison of love
