That hue in the sky  
Just a glimpse of another life  
Are barely missed by some stupid collection  
Life's random dominoes, if it only been more  
aggressive.

Oh and it burns me up.  
My friends might as well have pissed in my cup.  
Cause they knew and they never spoke up.  
You wanted the same as I did and I never will forgive  
them.

Is there something I'm failing to see  
A message in the stars.  
Secrets lying hidden from me  
Not sure what they are, if it keeping us apart?

She had Wilson Pickett's best on 45  
And one night you know she gave me ride  
To my place and we were all alone.  
But still neglected to mention.

Is there something I'm failing to see  
A message in the stars.  
Secrets lying hidden from me  
Not sure where they are  
Tell me am I always to be, watching from a far  
Cause your image breaks my heart.

Now the waltz is over  
Passed into the (?)

Now the waltz is over  
Passed into the (?)

Cause the day will finally come  
When time will have rendered me numb.  
Maybe then I can put it down.  
Let me linger for a moment now.  
Collect some details to recall  
Some part of life before it all

Fades into the darkness.

Is there something I'm failing to see  
A message in the stars.  
Secrets lying hidden from me  
Not sure where they are  
Tell me am I always to be, watching from a far  
Cause your image breaks my heart.
