I'll catch you up if you fall
This is the last damn song i'll write for you

I knew it right from the start
Everything would fall apart, but i will do it for you

A place in my heart,
It tells me ; Forget this now
It tells me to live, With nothing
Forget this now
It tells me to live

Situation, Situation
Situation, Took me away

I knew it right from the start
Everything would fall apart, but i will do it for you

A place in my heart,
It tells me ; Forget this now
It tells me to live, With nothing
Forget this now
It tells me to live
Situation, Situation
Situation, took me away
From this moment i wish could stay
