[Hook]

Cloverland...

We Botany big shots, chopping up on your block

Cloverland...

Burbans on the block, drop top on them dots

Cloverland...

We rolling like dice, staying covered in ice

Cloverland...

Game sharp as a knife, Big Shots for life

[D-Red]

Creeping, in a V-12 on blades

9-9 to be exact, jamming "Sun Hit the Fade"

Just got paid off of jam, called "Thought of Many Ways"

Sitting fat in the Clover a brand new Rover, dropping
hits like grenades

It's going down, keeping it real stacking them mills

Arches wide marble flows, living lavish on them hills

Cause living lavish is a habit, so I expose my game

Acting a fool breaking them rules, yeah Botany bring
the pain

Just known to shine when we flipping and dipping, and
Yak sipping

Clipping niggaz gals, while you out there set tripping

Tipping down the highway, getting paid doing shows

Gorilla pimping while you cakes, fall in love with these
hoes

[Will-Lean]

We got money and the power, suits by Eddie Bauer

Twenty room mansion, marble flo's outside my shower

Ceiling high as a tower, Rolex hands tell my hours

Drug deals go sour, we serve you gold medal flower

Two kilos of powder, so nigga give it up

Baguettes and princess cuts, your dreams we live it
up

Our cars be deluxe, top notch broads see we fuck

Big face bills and mills, my Clover piece bring me luck

Infrareds up, taking it to your dome

Letting it be known, Screwed Up Click mob strong

20 inch chrome, so watch the Lex Lan' shine

Don and thing mankind, Botany hit a land mine it's
Cloverland

[Hook]

[D-Red]

Is it that Clover, pushing big body with the V-12 motor
Fully loaded chopper, bout to tear it off your shoulder
Soldiers, on a mash to sell a million copies
R.I.P. Lil' Gator, but you still forever Botany
Watch me, break em off a leaf Clover style
Flipping with three pieces, we increase the Rover miles
Started as a click, and we gon finish it together
Just like the Botany B.G.'s, mayn we making cash
forever
Dropping platinum hits, trying to overflow my wallet
Dez in the FED, hitting that iron getting solid
I reminisce bout G's, I miss blazing up the doja
Two triple O we in the do', and shining for the Clover

[C-Note]

Cloverland-Cloverland, that's what they be screaming
Now wake me up if I'm dreaming, see how my
diamonds be gleaming
Producing stars like Ken, like Jodeci they fiending
Plenty hoes we tag teaming, cause we stacking that
green
Nigga we off the chain leaving a stain, gripping the
grain fuck the fame
The Botany Boys switched the game, the Botany Boys
who bring the pain
Run a train switch the lane, got love for Shane got love
for Dame
Girls in Spain they hooked like caine, got these boys
like hold up mayn
Like I said befo' we on the map, we on the go we got
the trap
We got the flow we got the rap, down with Pat we set
the trap
Diamonds in your face diamonds on my hand,
diamonds on my wrist diamonds in the Lan'
Wreck the sand like I'm the man, I throw away a
hundred grand
