It's not what you think
If you're thinking I'm a liar
Like falling from grace
I could do that

And I'll be waiting all day
And I'll be waiting all day

Summer grey...
It's only
And I'll be waiting all day
It's only
And I'll be waiting all day

It's not what you think
If you're thinking I'm a liar
Like falling from grace
I could do that

And I'll be waiting all day
And I'll be waiting all day

Summer grey...
It's only
And I'll be waiting all day
It's only
And I'll be waiting all day
