Yo its three thousand thirty  
I want y'all to meet Deltron Zero, hero, not no small feat  
It's all heat in this day and age  
I rage your grave, anything it takes to save the day  
Neuromancer, perfect blend of technology and magic  
Use my rappin so you all could see the hazards  
Plus entertainment where many are brainless  
We cultivated the lost art of study and I brought a  
buddy  
Automator harder slayer fascinating combinations  
Cyber warlords are activating abominations  
Arm a nation with hatred we ain't with that  
We high-tech archeologists searching for nicknacks  
Composing musical stimpacks that impacts the song  
Crack the motor what you think you rappin for?  
I used to be a mech soldier but I didn't respect orders  
I had to step forward, tell them this ain't for us  
Living in a post-apocalyptic world morbid and horrid  
The secrets of the past they hoarded  
Now we just boarded on a futuristic spacecraft  
No mistakes black it's our music we must take back

Yo it's three thousand thirty  
I want y'all to meet Deltron Zero, and Automator  
Yo it's three thousand thirty  
I want y'all to meet Deltron Zero, and Automator  
Yo it's three thousand thirty  
I want y'all to meet Deltron Zero, and Automator

Del I'm feeling like a ghost in a shell  
I wrote this in jail playing host to a cell  
For the pure verbal, they said my sentence was  
equivalent to murder  
Kust another hurdle, I bounced through a portal  
I knew they had the mindstate of mere mortals  
My ears morphed to receptors to catch ya  
Every word about gravity control  
and the families they hold for handsome ransoms  
On the run with a handgun, blast bioforms; I am  
warned  
that a planet-wise manhunt with cannons

will make me, abandon, my foolish plan of uprisin  
Fuck dyin, I hijack a mech  
Controllin with my magical chance so battle advance  
through centuries of hip-hop legacy, megaspeed  
Hyperwarp to Automator's crib and light the torch  
They can't fight the force  
Victory is ours once we strike the source  
Enterprisin wise men look to the horizon  
Thinkin more capitalism is the wisdom  
and imprison, all citizens empowered with rhythm  
We keep the funk alive by talking with idioms

Yo it's three thousand thirty  
I want y'all to meet Deltron Zero, and Automator  
Yo it's three thousand thirty  
I want y'all to meet Deltron Zero, and Automator  
Yo it's three thousand thirty  
I want y'all to meet Deltron Zero, and Automator

Isn't eternal evil concerned with thievery  
Medieval prehistoric rhetoric well we ahead of that  
Lay it down with soundwaves that pound pavement  
Original minstrals my central processing unit  
is in tune with my heart for this art  
Not artificial cause that makes it hard to miss you  
Copycats finish last in the human race  
Staying glued to safes too pride to take a buddha  
break  
We got espers that let us bless with fresh shit  
Undetected by yes men questing for five fleeting  
nanoseconds of fame  
Protecting the brain from conspiracies against my  
cosmos  
While I float to Neo-Tokyo with Opio  
or discuss combustibile rust clusters with Plus  
Evade cyber police in a computer crib confuse the kids  
but I can make a kickin rhymes thats sacred  
Telepathic mind that takes its greatness from the  
Matrix  
Esper rhyme professor rushes in ultra pressures  
with correction measures  
Why half the world's a desert  
Cannibals eat human brains for dessert  
Buried under deap dirt, mobility inert  
I insert these codes for the cataclysm  
Ever since I had the vision use my magnetism  
In this modern metropolis they tries to lock us up  
Under preposterous laws thats not for us

Yo it's three thousand thirty  
I want y'all to meet Deltron Zero, and Automator

Yo it's three thousand thirty  
I want y'all to meet Deltron Zero, and Automator  
Yo it's three thousand thirty  
I want y'all to meet Deltron Zero, and Automator
