I'm so sorry , yeah
It's the end of this story
I'm not the guy for you
You know that it's true
Don't try ohh all to get
I'm just your friend

Please don't cry anymore
Please don't cry anymore

I try to be a better person than before
I try to be differents you know
I try to be a better person than before
I try to be differents you know

Like my girlfriend
You would like to take my hand
Give up feeling for me (I can't be)
So tell me what did you see, the real me ?

Please don't cry anymore
Please don't cry anymore

I try to be a better person than before
I try to be differents you know
I try to be a better person than before
I try to be differents you know

I try to be a better person than before
I try to be differents you know
I try to be a better person than before
I try to be differents you know
