There's no place like London
There's no place at all
The east or the Westend

You end up in the best end
There's no place like London
And I've been around
There's no place like London town
When You walk down the street
Feel the history under your feet
From the top of St. Pauls

To the old market stores
All in all it's my cup of tea
There's no place like London
There's no place at all
The east or the Westend
You end up in the best end
There's no place like London
And I've been around
There's no place like London town
See them changing the guard
When it's raining as hard as can be
I don't care who you are

You don't have to go far
To get treated like royalty
There's no place like London
There's no place at all
The east or the Westend
You end up in the best end
There's no place like London
And I've been around
There's no place like London town
Take Paris in the spring
Take New York in the fall
But I'd leave them behind

For the best of them all
There's no place like London
There's no place at all
The east or the Westend

You end up in the best end
There's no place like London
And I've been around
There's no place like London

London 's capital
There's no place like London town
(transcribed by Roman)
