I'm right behind you, watching every step that you take,
waiting for an honest
Word to pass your lips waiting for the unjust sentence
I see it in you something very far from justice
something I can taste and smell
And feel and hear even though your darkness blinds
me

And you know they all listen when I speak my mind
And you know that is something you can't achieve
So I rise up above your spineless cause
And I wear a pride that you never thought was real

I am all you wish to be 'cause I feel it inside
I will not be checking in as it's in my blood

I know it's in you the jealousy that clouds your
judgement, making every thing
You say become hollow, twisted and distorted from
truth

And you know they all listen when I speak my mind
And you know that is something you can't achieve
So I rise up above your spineless cause
And I wear a pride that you never thought was real

I am all you wish to be 'cause I feel it inside
I will not be checking in as it's in my blood
I am what you fear the most 'cause I do it well
And I know you feel this too

I absorb your energy it keeps me breathing
I will stand to watch you fall to watch you fall into a
state of teething
I adore the sacredness of being stronger
And I lurk behind a smile

I am all you wish to be
I have what you need to steal
And I know you won't succeed
'Cause I see things differently

Have I not been there for you?
Have I not stood up for you?
Can you ever let it go?
I am me...

I'm right behind you, watching every step that you take.
