Did life look better up there?  
Your two minutes of no fear  
You picked the prettiest dress  
To noose around your neck  
Costume shops, and high school props will always  
know your name  
Rainy Wednesdays, screaming teenagers went out with  
the pain  
Went out with the pain  
I know you weren't scared  
Then again how dare I  
I don't know a thing  
When it comes to hangings  
Sold out day dreams substitute teachers will always  
know your name  
Piercing screams, vomit on the street went out with the  
pain  
Went out with the pain  
Couldn't have done it better myself  
What do you want to try?  
Girl knew how to die  
Couldn't have done it better myself  
What do you want to try?  
God bless suicide  
She didn't want our help  
Forgive ourselves  
She picked the prettiest dress  
To noose around her neck
