Everytime my all world falls apart  
I get myself into some trouble and I'm wondering why,  
who do I call? mister luiz...

Everywere I find my friends around  
But he's the only one who finds how to turn things up  
right  
Guess he's the guy  
His name is luiz

He's the one who speaks revolutionary  
Every plan we make  
He's the friend you never had

Little strange indeed a bit weard you think  
If you tinkle him he will be right there for you

He's luiz, he's luiz, we love luiz, yheeeee

Surfing to the Epanema shore  
Always looking for a snack maybe even two or three  
Check out the dog, don't let him down

Like an earthquake that rolls in to stay  
What a mess he makes, he's the friend you've never  
had

He's luiz, he's luiz, we love luiz, we love luiz, yheeeee

He's the one who speaks revolutionary  
Every plan we make  
He's the friend you never had

You never had this friend now... but I doooo... I dooooo...  
we love luiz, we love luiz
