You aint gonna get no play.
Don't waste your money.
Sit back and watch now.
I'll burn this town to the ground and I won't look back
Funny? Watch me open fire.
No edit undo now.
I'm over listening to your voice.
Under the hammer.
Might as well just sit and sink
Down into the drink with you.

Why be a national hero,
When you've got the power to be an international
hero?
When you look down,
Don't be alarmed, you've just got a case of the
Kingsmills.

Wouldn't even try no more,
You've been pushed to the floor.
What's the point in being alive?
Take over something else.
