She's automatic, ecstatic
I think I'm in control
She's erotic, exotic
Her touch is evil
When I feel she's close and walking up to me,
I can't ignore the sexual possibilities

Everytime she touches me, I go crazy
Positive energy, the chemistry's amazing
Shocks run through me, my heart starts racing
This girl, she's got electric touch

Electric touch
Hurts so good, I can't get enough
Of her electric touch
Hurts so good, I can't get enough
Of electric touch

Electric touch (x4)

I got a feeling this evening is gonna change our lives
She's the reason I'm feeling to touch her all night
When I sense her presence (it's amazing)
I leave the world and enter (sexual ecstasy)

Everytime she touches me, I go crazy
Positive energy, the chemistry's amazing
Shocks run through me, my heart starts racing
This girl, she's got electric touch

Electric touch
Hurts so good, I can't get enough
Of her electric touch
Hurts so good I can't get enough
Of electric touch

Electric touch (x4)

Everytime she touches me, I go crazy
Positive energy, the chemistry's amazing
Shocks run through me, my heart starts racing
This girl, she's got electric touch

Electric touch
Hurts so good, I can't get enough
Of her electric touch
Hurts so good, I can't get enough
Of electric touch

Electric Touch (x4)
