You came to dance, dance,
I see you got that look in your eyes
But the man to your left
No he won't let you out of his sight

So baby what you need
I know that there's a way you, wanna be.
And I can save you if you come with me,
there's nothing we can't do, tell me you want to

You've got something inside
I wanna let it out

So hold on tight, girl
And we can go all night
You know that I can make you say
OoOoOoh, OoOoOoh

Hold on tight, girl
And we can go all night
You, you know that I can make you say
OoOoOoh, OoOoOoh

You're holding back,
But you ain't gonna last for long
Coz you wanna be back
Can't have it is tuning you on

So baby what you need
I know that this is ain't where you, wanna be.
And I can save you if you come with me,
there's nothing we can't do, tell me you want to

You've got something inside
I wanna let it out

So hold on tight, girl

And we can go all night
You know that I can make you say
OoOoOoh, OoOoOoh

Hold on tight, girl
And we can go all night
You, you know that I can make you say
OoOoOoh, OoOoOoh

Come in close let me your feel your breathe

Make your move to my heartbeat
Have you sing a new melody
I wanna make you scream
Come in close let me your feel your breathe

Make your move to my heartbeat
Have you sing a new melody
I wanna make you scream
You've got something inside
I wanna let it out

So hold on tight, girl
And we can go all night
You know that I can make you say
OoOoOoh, OoOoOoh

Hold on tight, girl
And we can go all night
You, you know that I can make you say
OoOoOoh, OoOoOoh
