"That Will Never Do"

Give you my money four times a day
You go out at night and throw it all away
That will never do
That will never do
Sometimes I wonder what's to become of you

Say that you love me
Say that your mine
Now your out making love on the side
That will never do
That will never do
Sometimes I wonder what's to become of you
Solo

Say that you love me
Say that your mine
Now your out making love on the side
That will never do
That will never do
Sometimes I wonder what's to become of you
Solo

Give you my money four times a day
You go out at night and throw it all away
That will never do
That will never do
Sometimes I wonder what's to become of you
