Before loneliness will break my heart,
Send me a postcard darling.
How can I make you understand?
I wanna be a woman.
Here, here I'm waiting for a little sign,
Waiting 'til the end of time.
Send me a postcard darling.
Send me a postcard now.
Send me a postcard darling.
Send me a postcard now.
I can't take the lonely night,
I need someone I can turn to.
Look out the day I see a little sign,
Even though you're on my mind.
Yeah, oh please don't let me down.
There ain't no lover like me in town.
Send me a postcard darling.
Send me a postcard now.
Send me a postcard darling.
Send me a postcard now.
Before loneliness will break my heart,
Send me a postcard darling.
How can I make you understand?
I wanna be a woman.
Yeah, I'm waiting for a little sign,
Waiting 'til the end of time.
