And picture yourself knee deep in yukon's ice storm  
(gracious)  
It was a terrible intake of young street parallel driving  
(so uncurved)  
Maybe a don delillo world is a little too conceptual for  
us  
(intake)  
Join the threads as the curved kiss melts hearts  
(wise)  
One more unknown theory and then we are dust  
(sun)

Camouflage iris  
Dance a while upset.  
Aspire in height  
Locate fragment one  
Eyes swept iris  
Eyes swept iris

Camouflage iris  
(i can't stand it)  
Dance a while upset!  
(i can't stand it)  
Aspire in height  
(i can't stand it)  
Dance a while upset!  
(i can't stand it)
