When mouths hit the borders. a thin leap of red sin. lips  
split decisions. made a long time ago. make beliefs be  
used on our arms. take what feels right on this side of  
the ocean. when mouths hit the borders. a thin leap of  
red sin. lips split decisions. made a long time ago.  
make beliefs be used on our arms. take what feels  
right on this side of the ocean. my objectivity reaches  
air type consistence. grains of sense disappear into  
nothing. convinced by a summer. by a fall. by a day. by  
a night. an evening i was on the grace of your tonight. it  
takes a million afternoons. to learn to deal with. make  
beliefs be used on. take what feels right on this side of  
the ocean. i defy. i defy. i defy those skills. as the rose  
declined who got left. behind those sudden tracks  
disabled. sudden words inhaled. our love died young.  
as the rose declined who got left. behind those sudden  
tracks disabled. sudden words inhaled. our love died
