It's like a million smiles of concrete  
Another ladybug has come  
Percussion needs another victim  
Rhubarb rhythm rhyme ridiculous  
October freezes my hands on fire  
Boy rocket testing world  
Just for apprentice ability  
Higher type feed of laughter

Some of a lot of us got through.. airwise

Summer tends to breed lullabies that channel streams  
of love  
As ever so signs need paragraphs to feel alive  
Pilots love to leap into the air where balloons gravitate  
As ever so they realign the tail to perplex back

Until september comes the jets will stay on grass  
Hot stream the convert flux  
Helium on the sign  
As long as breathing doesn't won't become my only  
occupation  
That's essential  
Four miles ahead dynamics could change letterheads  
And blocks or bees  
As long as breathing doesn't won't become my only  
occupation  
That's essential  
Four miles ahead dynamics could change letterheads  
And blocks or bees

Summer tends to breed lullabies that channel streams  
of love  
As ever so signs need paragraphs to feel alive  
Pilots love to leap into the air where balloons gravitate  
As ever so they realign the tail to perplex back
