We set our eyes upon them all walking through the
valley of the damned
War and famine are trying to strike
I know this will be over soon
Jesus save us from our sinful ways
I see, I see,
What this world has done to me
I see, I see
What this world can have on me

I refuse to die,
I refuse to...
You cannot hide our city on this hill

They say they'll never tear me apart
I look with my eyes, and I see with my heart
This world will be over soon,
Repent of your sins and give them to Him
I see, I see
What this world can do to me
I see, I see
What this world can have on me

This is our mission
Our lasting statement.
This is our war
And no, we're never looking back!

We will stand on solid ground (x4)

And I refuse to die,
I refuse to...
You cannot hide our city on this hill (x3)

We will stand on solid ground (x2)
