you bring it out and you count on me to carry on
a flower child in the air is as high as they come
oh hypocrite oh hippy accommodate the cynic
yea a swimmer now well you know you're gonna drown
with me in it

I wanna breathe breathe it in now
intoxicate me all the way I want to feel it
I wanna breathe breathe it in now
resuscitate the life in me I want to live it

with you it's electric alive it's a ride to the sun
I wanna live in it I want to make it devine
sell this away sell myself all away
cause I love that high and I love it every day

I wanna breathe breathe it in now
intoxicate me all the way I want to feel it
I wanna breathe breathe it in now
resuscitate the life in me I want to live it
I wanna live it and I wanna breathe
I wanna breathe yea

I wanna breathe breathe it in now
intoxicate me all the way I want to feel it
I wanna breathe breathe it in now
resuscitate the life in me I want to live it
I wanna live it and I wanna breathe
I wanna breathe yea
I wanna breathe
intoxicate me all the way
up all the way
up all the way
up all the way
oh
flower child in the air up there
and is she high
yea
