you prey upon me a chill around me a thought of
handing over
I saw screaming light screaming lies a last hour hold
me
can you get me off will you get me off never get me off
I felt the pain as they laid their roses on me

black out my world fog out my mind
can't find my way around
it comes cold and kind
I'll let that novocain envelope me
I won't complain again
Im insulated a well sedated
hypnoride
chemicalize me
chemicalize me
chemicalize me
chemicalize me

you fed upon me faded around me now that your stay
is over
you've taken all the life and all the lines about time you
told me
can you get me off will you get me off never get me off
I felt amazed I felt it sink in to me

black out my world fog out my mind
can't find my way around
it comes cold and kind
I want that overrated fever
almond in the air again
education boldly stated
a hip surprise

chemicalize me
chemicalize me
chemicalize me
chemicalize me

and it's all that I know and it's all I'll ever know
and it's all that I know and it's all I'll ever know

chemicalize me chemicalize me chemicalize me
chemicalize me
chemicalize me chemicalize me chemicalize me
chemicalize me

and it's all that I know and it's all I'll ever know
and it's all that I know and it's all I'll ever know
