We're shocking you until you turn to blue
We're shocking you see what we're gonna do
Look out it's like electricity
Don't think it's fantasy

The sound of guitar is sparkling lightning
The sound of bass like a hurricane
Join the crowd and we'll be shocking you

Rhythm of drums like a waving thunder
Goddess of music brings a magic voice
Join the crowd and we'll be shocking you

The wave of currency knocks you down
Like high tension is that magic sound
Join the crowd and we'll be shocking you
