We'll take them one by one
They'll never see us
coming down safe and sound
Am I alone?

Well your becoming everything I hate
but there's no stopping you
before it's too late

Someone start this over
because I'm beginning to see
Someone start this over
we have to prevent us from collapsing

We'll take the world by storm
They'll never see us
coming down safe and sound
Am I alone?

Well your becoming everything I hate
but there's no stopping you
before it's too late

Someone start this over
because I'm beginning to see
Someone start this over
we have to prevent us from collapsing

We'll show them how
they will believe
We will prove them wrong
We'll show them how
One by one

Someone start this over
because I'm beginning to see
Someone start this over
we have to prevent us from collapsing
