Verse

Out of the shadow and into the light  
I've tried to crawl all my life  
The shadow surrounds me  
I'm lost in the night  
Feels like an eternal fight!

Prechorus:

Deep in the forest and its might  
Alone with myself I try to hide  
I want to live my own life  
Surrounded by beauty I find rest  
Will think for myself  
Won't be oppressed  
While trying to find the way to the light!

Verse

They will condemn me feel sorry for me  
Try to save me from the madness  
They tell their stories  
What's right and what's wrong  
But all I can hear is their sadness!

Prechorus:

I want to go where no one's been  
I want to feel what no one's felt  
I want to live my own life  
Surrounded by beauty I find rest  
Will think for myself  
Won't be oppressed  
While trying to find the way to the light!

Guitar solo - Christian

Chorus

Clearing

The Hall of the Forest Majesty  
The secret to the divine rests here  
Here I will seek the meaning to my life

Clearing  
The Hall of the Forest Majesty  
The secret to the divine rests here  
Here I will seek the meaning to my life!

Guitar solo - Gabriel

Chorus

Clearing  
The Hall of the Forest Majesty  
The secret to the divine rests here  
Here I will seek the meaning to my life

Clearing  
The Hall of the Forest Majesty  
The secret to the divine rests here  
Here I will seek the meaning to my life!
