Dennis Wilson

You ain't got time for diamonds

And you pay no mind to gold

You gave up everything you had

But there's one thing I want you to hold

Come let the power through you

Come on and let me thrill you

Mama now

(Baby come on come on)

Come on baby

(Baby come on come on)

Come on baby

I just want to do it with you

Well I don't care where you want to go

Just so you go with me

And I don't care what you want to do

But make sure you do it with me

All I want to do with you

Well I just make-a some love to you

Come on baby

(Baby come on come on)

Come on baby

(Baby come on come on)

I said baby

(Baby come on come on)

I just want to do it to you

All night lo-ong

Yeah yeah

(Baby come on come on)

Come on baby

(Baby come on come on)

I said baby

I just want to make it with you

Ohhhh

Come on

Come on come on come on baby

(Baby
