"Basket Of Fruit"

Lost time, feel hollow
Got high, just follow
Where the sunshine shows it's face
Need a place where you could stay.

Hang out until morning
Sleep with another
Prince in a one-night stand
Drive around town in his black sedan.

[Refrain]
Realising everything will be just fine
All the doors will be open all the time
'Cause beauty makes it's own surprise
As long as you have the looks
And keep fresh your basket of fruit.

Your dad should know
You're free to go
Everywhere the sun wakes up
They always give you a free ride home.

Lost time, feel hollow
High and dizzy, just follow
Choking on the pavement
All alone in your decadence.

[Refrain]
Realising everything will be just fine
All the doors will be open all the time
'Cause beauty makes it's own surprise
As long as you have the looks
And keep fresh your basket of fruit.
