You know what I sayin' one was mine

So, where that Mike at

Where that little bastard at that little bastard that took
that other one

Where you at, come her man come here man come

I got seven motherfucking minutes so you gotta make
this quick

See home-piss right here...

This is my man right here, word up

What you sham me for what's wrong

Nutin' man

You alright

Alright fuck it them I'm gonna goin you with one in five
minutes alright

Enough talk, let's start fighting...

What kind of nobility is that huh

If you wanna find out, try me, Haaa
