Rotten heart makes a dull sound everything becomes
dirty

You don't even notice if you're gonna be a mummy

Hang down, hang down hang down to the bottom

Hang down, hang down hang down to the bottom

Hang down, hang down hang down to the bottom

Hang down, hang down hang down to the bottom

You've gone too far this time

Formaldehyde brain melts and flows

Picking up eyeballs and lining them up.

Swarming, swarming swarming with flies

Swarming, swarming swarming with flies

Swarming, swarming swarming with flies

Swarming, swarming swarming with flies

Humid air hanging over stink of sewers

Big rat went to die cause it's fat

Going, going going to hell

Going, going going to hell

Going, going going to hell

Going, going going to hell

You've gone too far this time
