Nothing's gonna start if you and I do nothing
Nothing's gonna change if you and I are only waiting
Nothing's gonna move if you and I see only one thing
Nothing's gonna work but I can't change the system of
this world

Hey money junkie, what are you living for?
I burn with anger, I set time bombs everywhere

Explosion, explosion
If I leave it as it is and break away
Explosion, explosion
I can't wait, there is no time anymore

I'm very hungry
Bring me something to eat
I'm getting angry
Destroy everything, it's like a battle field

Explosion, explosion
If I leave it as it is and break away
Explosion, explosion
I can't wait, there is no time anymore

Something's gonna start if you and I do something
Something's gonna change if you and I get going
Something's gonna move if you and I see everything
Something's gonna work and you and I can conquer
this world

Explosion, explosion
If I leave it as it is and break away
Explosion, explosion
I can't wait, there is no time anymore

Explosion, explosion
If I leave it as it is and break away
Explosion, explosion
I can't wait, there is no time anymore
