

Shonen Knife "Faith Healer"

Visit "[Faith Healer](#)" on MotoLyrics.com

Shoving me so I will hear
While I am so weak I kneel
Begging she'll remind me
But she says few words not free
So I leave the drafty tent
This will be a ten well spent
Rub my hands with effort to read
Between the lines...like you do
Dealing with the faith healer
And trusting in the palm reader

Now is the time we must get on
When the healer's not around
Let me talk love to you know
As if I could show you how

You are wonderful but nothing new
The faith healer can do this too
She arrives with warrant to close you down
She's been around, sees through you
With a warrant to close you down, she's been around
