When I was just a young boy
My daddy came to me
Said, son out in this world
There's alot of things that are gonna make you feel like
you're supposed to be
You don't have to read the good book
Be a good man just the same
And forget about the money
Money ain't brought nothin' to your daddy but pain

Chorus:
It Aint Easy
It Ain't Easy
But You'll Be Alright

Now it's fifteen years later
And I'm out on the road
And it's been four years to the day since he died and
they won't even play us on the radio
And I think i found my way alright
Without him here to catch me now and again
I just keep on moving along keeping my mind on my
song and trying to play about love

Chorus

Any other fool
Any other fool would throw this away
Any other fool

Wanna take a minute to thank you
for all the things that you've done
Yeah you gave me a light in the dark of the night
When there was no where to hide no where to run

Chorus
