Drive Me Home by Shane Yellow

Foot let off the accelerator,
Slammed down on the brake.
Before it's too late
And grab the wheel right now
Eyes look back in the mirror
She's standing back there crying
Her love is quickly dying
So turn around

Drive me home
Don't waste another minute
This road is all dead ended
It only leads to lonely
Cry will take us way too far
End up leavin' our heart
Broken, an empty soul before
This thing speeds out of control
Drive me home.

Lips, you should have said I'm sorry.
Those are the only words
That she never heard
You really hurt her bad.

'Stead of staring down the highway
On she's leadin you to hope
So pull over on the shoulder,
Let's go back

Drive me home
Don't waste another minute
This road is all dead ended
It only leads to lonely
Cry will take us way too far
End up leavin our heart
Broken, an empty soul before
This thing speeds out of control
Drive me home.

Go as fast as you can,
Maybe there's a chance
That she'll forget me

Ooooooooooooooooooh

Cry will take us way too far
End up leavin our heart
Broken, an empty soul before
This thing speeds out of control
Drive me home.

Drive me home.
