When hard times fall on me and you
And lately there've been more than few
We hold on tight, make it through somehow

When every hill's straight up and long
And carefree highway's just a song
Gotta laugh and sing along real loud

Everybody feels the cold hard rain
And swear sometimes it's never gonna end
Me, I get so tired of waitin'
Worry's just an understatement

I look at that lazy river
Wonderin' how it feels to be so free
I go to my thankless job
Work hard, hope my body holds up on me
I lie in bed at night, pray heaven help me to face the
fight
Thank God when this world's tough on me
Lovin you's so easy
Lovin you's so easy

Holding you, oh it's just like breathing
Afternoon's got that Sunday feeling
On and on (on and on)
Let me just stay this way... come Monday

I look at that lazy river
Wonderin' how it feels to be so free
I go to my thankless job
Work hard, hope my body holds up on me
I lie in my bed at night, pray heaven help me to face the
fight
Thank God when this world's tough on me
Lovin you's so easy
Lovin you's so easy
Lovin you's so easy
Lovin you's so easy
