Try my love, try my love
Try my love, try my love

Try my love again, just one more time
I gotta treat you right now, baby, I've gotta make you
mine
If you ever leave me, if you will make me cry
I really take care of you, darling, heaven knows, I'll try
Your sweet loving, is better than a kiss
And after you leave me, baby, sweet kisses, I'll miss

Tell me you love me, baby, I'll always be your girl, yeah
I'll always take care of you, darling, the best that I can
Try my love, I've got to treat you right, yeah
I've got to make you mine, everything will be all right

Try my love, try my love
I need to do it, baby
I gotta make you mine

Tell me you love me, baby, I'll always be your girl, yeah
I'll always take care of you, darling, the best that I can
Try my love, try my love, you need to do it, baby
You will be allright

Try my love, try my love
Try my love, try my love
