I'll be back before I am missed
I'll be strong.
Just keep moving on with your life.
I'll be back just taking a trip through my mind
So much stuff I gotta get rid of
It won't be long you'll see me much stronger than
before.
Time will bring change and I'm moving on
I'm making a change for the good
I've never felt so much better.

I tried to live a good life for my family and friends
But now I've come to realize I've got to live because of
me

You'll see me again
I'll be scrubbing my heart for a while
I've got so many scarys just carry on.
I'm doing what right for myself
I'm looking for peace in my heart
I'm feeling good
All my troubles have been laid to rest.
I've made up my mind.
I'm pushing through all the doubt that's been stored for
so long
Everything is feeling so much better...
You'll see me again.
