Tear open the sky let hopelessness settle in
We can all see the void with closed arms there's
nothing to defend
Scenes from your life at night play like a video in your
mind
The best victory ever one was the one who came from
behind.

Everyone that is willing play along
Gather 'round and help me sing your song
Bring your mom and dad your brothers and your wife
And don't forget this is your life.

There's a tear in your eye what can I do to help
Being alone is never fun especially when you're by
yourself
Dry your eye and give me a hug it's nothing more than
love
Not love that takes away but it's love from above.
