(Al Urban)

I have done everything I can to please you  
And the price I paid for loving you was high  
And for you I would bend over backwards  
Just to keep you satisfied.

Now you say that you would like to ask a favor  
And I just can't believe that it's true  
But I'm afraid that this is one time I can't help you  
'Cause you're wanting me to stop loving you.

--- Instrumental ---

I have tried all I know to make you happy  
And you know your every wish is my command  
Now today you say that it's all over  
And I just don't understand.

Now you say that you would like to ask a favor  
And I just can't believe that it's true  
But I'm afraid that this is one time I can't help you  
'Cause you're wanting me to stop loving you...
