(Red Simpson - Fuzzy Owen)

You walked in with me but you walked out with
someone else
And left me sittin' here alone all by myself
I thought you were over him but I was wrong
My world just stopped but the band keeps playin' on.

They just keep playin' cause they don't notice you are
gone
You walked right out on me while they played our
favorite song
And before you reached the door my teardrops
reached the floor
My world just stopped but the band keeps playin' on.

--- Instrumental ---

You said that you'd forgotten him and no more did you
care
But when he walked in your eyes lit up to see him there
Well he asked you to dance and just like that you were
gone
My world just stopped but the band keeps playin' on.

They just keep playin' cause they don't notice you are
gone
You walked right out on me while they played our
favorite song
And before you reached the door my teardrops
reached the floor
My world just stopped but the band keeps playin' on...
