(Glenn D. Tubb)

So give me another glass of mem'ry killer
Make it a double please
Her memory is a gettin' bigger
It's almost got the best of me.

I just stopped by to have one more
Just enough to get me home
But I happened to think when I get there
I'm gonna be all alone.

So give me another glass of mem'ry killer
Make it a double please
Her memory is a gettin' bigger
It's almost got the best of me.

--- Instrumental ---

She's just been gone about long enough
For me to realize she's gone
And I don't think I'm gonna be strong enough
To make it on my own.

So give me another glass of mem'ry killer
Make it a double please
Her memory is a gettin' bigger
It's almost got the best of me.

So give me another glass of mem'ry killer
Make it a double please
Her memory is a gettin' bigger
It's almost got the best of me...
