(Johnny Carver)

See that woman sittin' there bright light shinin' in her
hair

My baby used to be that way

See her dancin' with the men she's been here since
Lord knows when

My baby used to be that way.

Many nights I'd be alone didn't know where she had
gone

Yes, my baby used to be that way

Then I found her here one night took her home and
loved her right

Yes, my baby used to be that way.

--- Instrumental ---

My baby used to be that way.

--- Instrumental ---

My baby used to be that way.

So don't blame her for her way love will bring her better
days

My baby used to be that way

She's just waitin' for her man it's the only way she can

Yes, my baby used to be that way.

--- Instrumental ---

My baby used to be that way.

--- Instrumental ---

My baby used to be that way...
