(Harlan Howard)

Out of a honky tonk came the girl I love
Out of a honky tonk one lonely night
All my friends were wrong when they said that love
Born in a honky tonk could never be right.

Out of a honky tonk walked an angel
That's how she's been to me
Anything I say, anything I do is what she wants
And where she wants to be.

Out of a honky tonk came my happiness
Out of a honky tonk walked this girl
And she gives me love like I never knew
Out of a honky tonk came my whole world.

--- Instrumental ---

Out of a honky tonk walked an angel
That's how she's been to me
Anything I say, anything I do is what she wants
And where she wants to be.

Out of a honky tonk came my happiness
Out of a honky tonk walked this girl
And she gives me love like I never knew
Out of a honky tonk came my whole world...
